

ILSI America LLC Press Release

ILSI America LLC announces the acquisition of Ecliptek Corporation

February 8, 2017

Reno, NV – ILSI America LLC is pleased to announce the acquisition of Ecliptek Corporation.

The new company, Ecliptek LLC, will operate as a wholly owned subsidiary of ILSI, and will be headquartered in Reno, NV with an additional location in Southern California.

The Ecliptek brand will continue to be supported for both new and existing customers in the frequency control marketplace without interruption. The transition of ownership to ILSI will be seamless to our valued customer base.

“We are very excited about Ecliptek joining ILSI which will complement our existing frequency control product lines. Ecliptek brings additional product offerings and distribution relationships that will benefit the combined organization” said Mike Nusbaum, Chairman and CEO of ILSI. “Ecliptek has a solid brand reputation in the Frequency Control Market and will complement our ILSI and MMD brands”.

ILSI and Ecliptek were both established in 1987, providing many successful years of service, experience and expertise in the Frequency Control Market.

About ILSI America LLC:
