

ILSI-MMD-Ecliptek Expands Sales Network with Addition of MaRCTech2 Associates

June 6, 2018

Reno, NV - ILSI-MMD-Ecliptek, a market leader in frequency control products, has hired MaRCTech2 Associates as an authorized sales representative for the Washington and Oregon markets. MaRCTech2 is an experienced and valuable resource in the Pacific NW; they are technically proficient, industry savvy and offer concise solutions to their customers.

“ILSI-MMD-Ecliptek is proud to announce MaRCTech2 Associates as our new authorized sales representative for the Pacific Northwest,” says Amy Cuttrell, Director of Sales and Marketing for ILSI-MMD-Ecliptek. “We are looking forward to working with MaRCTech2 and believe that they will be a tremendous asset to us and our customers.”

According to Mike Gunderson, President of MaRCTech2, Inc., “We are excited about our new partnership with ILSI America. Their broad range of frequency control products will offer our customers a wide array of solutions for their ever increasing demands of product features and reliability.”

About ILSI-MMD-Ecliptek:

Founded in 1987, ILSI America, the parent company to MMD and Ecliptek, has been a market leader in frequency control products for over 30 years. Through all three brands, ILSI-MMD-Ecliptek provides turnkey supply chain management solutions and engineering support for frequency control products for our OEM customers and worldwide distribution partners. We offer a wide range of quartz and MEMS frequency control products, including surface mount and thru-hole solutions that serve every aspect of the global timing market.
